

How do I set up a tournament?

First, prepare the shoot program in .pdf format. The following details are examples of information necessary to set up a shoot.

- General Shoot Information: shoot name, dates,
- General Event Information: event name/date

- Specific Shoot Information: daily fees (ata, state, local), shooter categories
- Specific Event Information: target price per event, options available and price, how options will be run

Second, use the shoot program to complete the Shoot Enrollment Form. Allow at least 7 days lead time. Submit the Shoot Enrollment Form from the [shoot enrollment](#) form on the [club dashboard](#). An email confirmation of receipt will be sent containing the date of creation of your shoot.

Third, compare your shoot program to the shoot created on Shoot Pro Cloud.

Fourth, enjoy the features of running a shoot with the latest in shooting management technologies!
