

# What do I need to run Shoot Pro Cloud?

One of the benefits of using the latest technologies is that Shoot Pro Cloud can run on almost any device with a web browser and a high-speed internet connection (25 Mbps minimum). Shoot Pro Cloud can even run on a smartphone, if necessary<sup>1</sup>. To print reports, a laser printer is recommended due to speed and extended shelf life of toner cartridges vs. ink jet cartridges.

- High Speed Internet Service
  - 100+ Mbps recommended
  - 25 Mbps minimum
  - Dedicated - not shared with the public
- Modern devices with web browsers
  - Chromebook
  - PC/Mac
  - iPad/Tablets
  - Chrome, Edge, or Safari
- Printers
  - Laser printers are suggested.

<sup>1</sup> not recommended. Most screens have been designed for a 10" tablet, such as an iPad.
